  - » Smart automation of complex tasks

#### Savings

- » Intelligent resource utilization
- » AI-driven scaling effects
- » Increased productivity

## Step ahead in Tax & Finance with wtsAI

wtsAI together with the WTS Digital Hub combine expertise in tax and finance with deep technical expertise in Business Intelligence, Data Analytics and Artificial Intelligence to help make tax functions best in class.

Our product portfolio includes strategy consulting on digitalization in tax and finance functions. We develop and implement intelligent tax solutions – Tax Apps – and set up tax data lakes. With our solutions, we ensure compliance, accelerate and optimize tax processes and create an excellent basis for business decisions.

As part of WTS Global, we are represented in over 100 countries and are able to meet the requirements and needs of internationally active clients.

## Step by step to AI

Our step by step approach to help create a truly digital tax function. Data and processes are key.

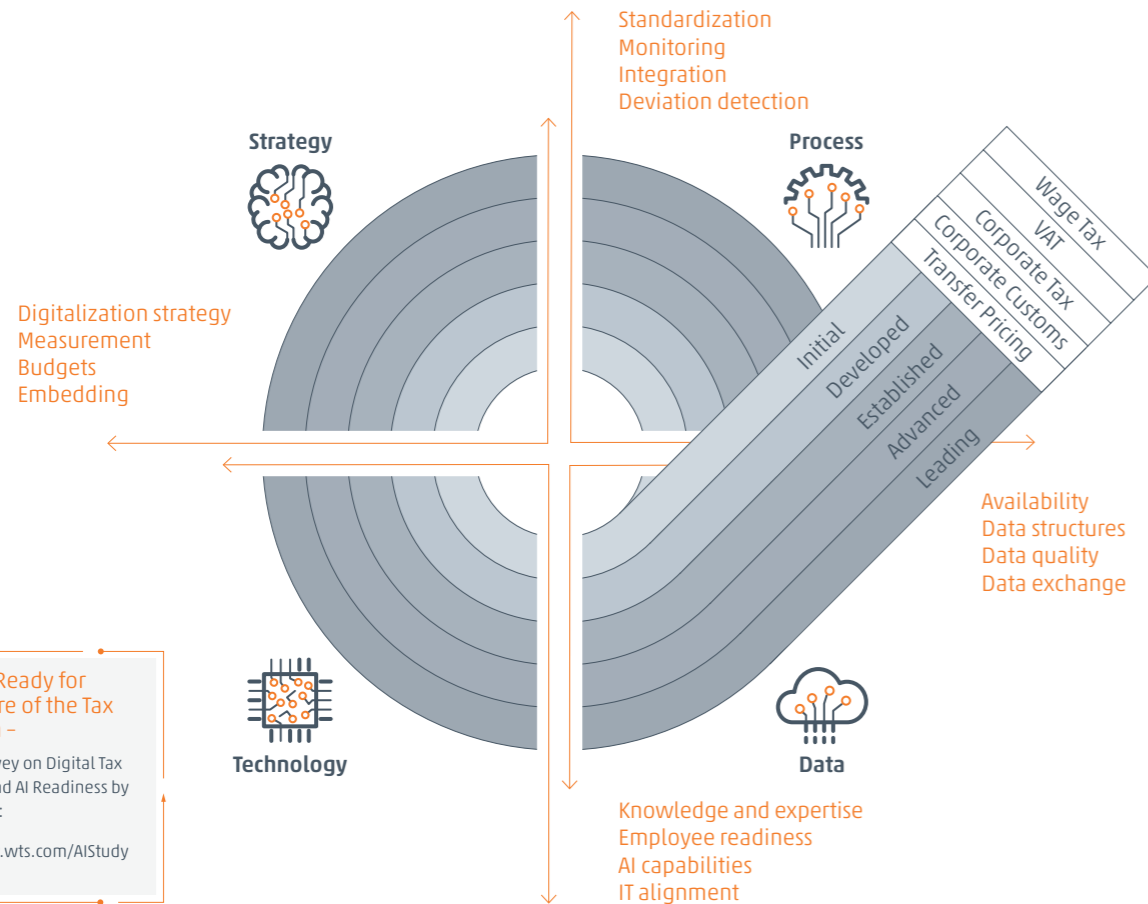

## AI Readiness Check

Your journey to the digital tax function of the future

# WTS Tax Maturity Model for assessing the digital maturity of your tax function

- » The Readiness Benchmark is a guided assessment of your digital maturity and AI readiness based on the WTS Tax Maturity Model.
- » It enables a well-founded assessment, which allows you to benchmark yourself against other industries.
- » The WTS Tax Maturity model has been developed in close cooperation with different multi-nationals, which are part of our benchmarking database.
- » This model is the starting point for all further steps on the way to a digitalized tax department, and the usage of AI.

## Getting started: Let's check your digital maturity and AI Readiness

Digital technologies provide answers to the diverse challenges that tax departments are facing today.

The analysis of the digital maturity of a tax function is an essential requirement for the identification of application potential for Artificial Intelligence technologies.

### Advantages: Know your digital maturity & benchmark yourself

- » Detailed screening of processes and data in our Readiness Platform
- » Quick identification of your digitalization and AI potential
- » Concrete recommendations
- » Fast selection of use case and AI solutions
- » Rapid implementation in our product "AI challenges"

## Workshop Day I

- » Building an awareness for digitalization and AI in taxation
- » Prioritization of digitalization topics and focus areas
- » Selection of relevant processes and data
- » Online guided assessment and evaluation of current and future status of digitalization

## Workshop Day II

- » Presentation of Status Quo: Classification in WTS Tax Maturity Model
- » Comprehensive insights and guidance for implementation sprints
- » Benchmarking and comparison with other companies within and outside the industry
- » Documentation of results and individualized roadmap for achieving AI readiness

Step ahead in Tax & Finance.
